Major Jeffrey Prather, a retired special operations intelligence officer, slammed President Joe Biden's administration for continuing to **collude with the "evil" cartels in human trafficking**, especially children. He further revealed that, in this regime, it is worse because they are how the kids in brothels hidden in the guise of hotel accommodations.

In a recent appearance on the "SGT Report" podcast, Prather said that he worked on the Nogales Sonora border near Mexico as a *Drug Enforcement Administration* (DEA) special agent for 10 years and did cross-border operations. He claimed to be familiar with the operations of the Sinaloa cartel. "For me, there's nothing new in saying that the cartel controls the border. The Sinaloa Cartel has controlled the border for a long time. Every plaza or corridor is controlled by a cartel and run by a federal aid comandante," he explained.

all the little children. "Under the former President Barack Obama's administration, [he] was pimping kids," he said, however, with "pedo Joe," and his pedos, it is a thousand times worse. "Now they're putting these kids into hotels from San Diego to New York. It's one thing to be in a fenced-in open enclosure, where you can see what's going on. It's another thing to put children into hotel rooms, and [that's just child brothels](#)," he disclosed.

At this point, podcast host Sean Turnbull brought up the controversial murder of Seth Rich back in 2016 in connection to his leaking of emails from the Democratic National Committee (DNC), indicating that Biden and Hillary Clinton used the *Federal Bureau of Investigation* (FBI) well-known pedophilia terms in their emails.

Prather answered that for one, the FBI is not a law enforcement organization but an intelligence organization with law enforcement capabilities. The federal agency has been interfering in elections for a long time now and they are managing and controlling that, placing who they want. "And so, they make it up to be whatever they want it to be. And they are shaping the battlefield or reality to their forces of action as they want. But now that has been turned around," he said, adding the controversy of former Congressman Anthony Weiner's laptop.

"I wonder if you have any information about this because, at this point, it seems like an [urban legend that there is a video called 'frazzledrip'](#)," Turnbull said, referring to a rumored dark web snuff film showing Clinton and longtime aide Huma Abedin sexually assaulting and murdering a young girl, drinking her blood and taking turns wearing the skin from her face as a mask.

The said video was allegedly discovered on the laptop of Weiner, who is Abedin's ex-husband, in a folder labeled "life insurance," and police officers who've reportedly seen it were so horrified that they were driven to suicide. Turnbull said that this made the *New York City Police Department* cops sick to their stomach, and "now a bunch of those men are dead."

Prather was affirmative when pushed by the host whether he thinks this story is true. "I think true. I have seen bits and pieces of that. And I worked in the Manhattan office of the DEA and therefore closely with the NYPD. You can still hear recordings of Podesta with a child screaming. You can still look at Will Ferrell with the clowns, the kids in cages, and the obscene and abominable

'Saturday Night Live,'" he said. "And they really like to just rub this in our faces publicly and Obama did the same thing. Because it's an adrenaline rush for them. It is really [a worship of evil](#)."

He added that he has also seen clips of two pairs of little girls inside sex offender Jeffrey Epstein's now-defunct temple. According to him, the temple had no doors and there was a center art altar. Also, the late Senior Special Agent Ted Gunderson, the fifth highest guy in the FBI back in the day, said he saw school tunnels and satanic objects which an archaeologist verified to have existed. "So, I think there's plenty of whistleblowers coming out. The difference now is that social media like tracers and islands in the Pacific can work both ways," he stressed.

People are waking up but more needs to be done

Elsewhere in the show, host Turnbull expressed a gleam of hope that people are starting to wake up to these demonic ways of the deep state but there's still a lot to be done to coax everyone to fight this.

"I started going down the rabbit hole after 911. It's a difficult awakening. And that's why I think most people still don't want to wake up. We can try to coax them to wake up with information like this. But generally, we're just preaching to the choir here," the podcaster pointed out.

Prather agreed, emphasizing that the deep state consumes everything and produces nothing which is why all it can do is run children, guns and drugs.

"That's why we've got troops still giving money to Afghanistan, why we've got troops over in Ukraine, and we do in Syria as well, because it's endless grey wars to support their corrupt economy," he also noted.

One thing you seem to be missing in favor of sensationalism is the fact that if there are so many of these child victims being put in ordinary hotels in ordinary cities, there are an awful lot of

"ordinary" men and women seeking this sort of abomination. If it were just the elite, there would
